NODE JS (API/ADMIN PANEL) and React DEVELOPER

Creative web and API developer dedicated to building and optimizing the performance of user-centric, high-impact APIs for national and global companies. Leverage technical, analytical, and problem-solving skills to create dynamic, high-speed APIs and admin panels.

EXPERTISE

- Determined coding requirements for Admin Panel creation, including e-commerce capability and specialized scripts.
- Designed Panel to be compatible with top browsers, including Firefox, Chrome, and Safari.
- Designed, implemented, and monitored panels and APIs for continuous improvement.
- tested APIs and performed troubleshooting prior to deployment.
- Used programming capabilities in Mongo, SQL, Node.js, JavaScript, and other libraries as needed.
- Created UI layout and user interface using HTML and CSS practices.
- Researched new technologies, software packages, and hardware products for use in Node.js projects.
- Manages all reports and documents related to APIs and front-end development.

PROFESSIONAL EXPERIENCE

Send me Technologies, Vapi | Nodejs Developer, flutter Developer, CI (Codeigniter) 2019 to 2021

Worked as a Node.js developer for making SLS APIs with(aws dynamo,s3). Design a UI and launch an app for Strong Systems' clients that is highly responsive and functional. Converted all APIs CI APIs to SLS node js.

EbizzInfotech Pvt. Ltd, Surat | Nodejs Web and API Developer, 2021 to 2022

Working as a Node.js developer for making cross-platform websites and also working on making APIs.

DIT Interactive Pvt. Ltd, Ahemdabad| Nodejs Web,API Developer, React, Next.js and Bigcommerce js, 2022 to current

In addition to creating cross-platform websites, I work as a Node.js developer.

REPRESENTATIVE PROJECTS & RESULTS

- **Send Me** : Developed API using PHP framework as Codeigniter and backend as MYSQL, and frontend as Flutter. I also made SLS APIs in Node.js with S3 and DynamoDB.
- **Baradari App** : Its app is like Instagram. Which has communities and chatting functionality, and users can post images, videos, etc. Used backend as Nodejs with MongoDB. Managing Socket for chatting functionality. Authentication is Managed by token.
- **Prayer App** : Its social App which has occasions, supplicants, events, etc. used frontend and backend as node js and MongoDB. Managing localization for multiple languages in Panel and Backend.
- **NatSpec App** : Running Project, using Backend as Nodejs with MySQL.
- **Vove App** : It's a dating app, in which you can chat and connect with other persons by area. I did work as a backend node js with MySQL DB. Managing Socket for chatting functionality. Authentication is managed by token. manage subscriptions using IAP for both Android and iOS.
- **Rv App** : It's a service provider App, using that app, users can request some items to be provided. and the provider can assign that task to his agent and provide some facilities. I did work as a backend node js with MySQL DB. managing payment using a Stripe provider for both payment and payout.
- **Naxcan App** : It's a cap book app. I did work as a backend node js with MySQL DB.
- **playurcv App** : It's for finding a job app. I did work on socket for chatting as backend node js with MySQL db.
- **Kapiva web**: Create custom checkout in Big Commerce; also work on GA4 events. Worked on some lambda functions for payment sections with just pay.
- **IBA App** : worked with Clever Tap to upload 3 lakh bulk events from CSV to clevertap.
- **DIT Acadamy Admin panel** : worked on React for admin panel. and create required APIs with MySQL DB.
- **Club Admin panel and website** : It's a freelance project. I did work on socket for chatting as backend node js with MySQL DB created APIs and created a website using ejs.
- **Hunter Home** : It's a bigcommerce store website. Create some API for the admin panel, as the client wants his own admin panel. Using MySQL Database Also create webhooks for products, categories, and customer crud operations.
- **Bigcommerce Checkout**: worked on checkout pages changes on client conditions. worked on multiple projects.
